## PROFESSIONAL SUMMARY

---

Passionate Full Stack Developer with hands-on experience building full-stack web applications using the MERN stack. Strong understanding of frontend and backend development, RESTful APIs, authentication and authorization, real-time systems, and database design. Experienced in deploying production-ready applications using modern JavaScript technologies.

## TECHNICAL SKILLS

---

**Programming Languages:** JavaScript (ES6+), TypeScript

**Frontend:** React.js, Next.js, HTML5, CSS3, Tailwind CSS, Vite

**Backend:** Node.js, Express.js, RESTful APIs, JWT Authentication, CRUD Operations, MVC Architecture

**Databases:** MongoDB, Mongoose

**Real-Time & APIs:** Socket.IO, WebRTC, WebSockets

**Tools & Deployment:** Git, GitHub, Stripe API, Cloudinary, Vercel, Render, DigitalOcean

**Soft Skills:** Problem Solving, Team Collaboration, Leadership, Attention to Detail, Communication, Fast Learner, Accountability

## PROJECT EXPERIENCE

---

**ByteTalk** | *Full Stack Real-Time Messaging Application* | [bytetalk.live](https://bytetalk.live)

- Developed a full-stack real-time chat application with one-to-one and group messaging using the MERN stack.
- Implemented voice/video calling using WebRTC and secure JWT-based authentication with media upload integration.

**InstaClone** | *Full Stack Instagram Clone* | [insta-clone-teal-tau.vercel.app](https://insta-clone-teal-tau.vercel.app)

- Built a feature-rich Instagram clone using Next.js 16, React 19, MongoDB, and Tailwind CSS 4 with Cloudinary for media storage.
- Implemented credential-based authentication via NextAuth.js, infinite scroll feed, 24-hour stories with fullscreen autoplay viewer, and short-form Reels feature.
- Developed social interactions including like/unlike with micro-animations, optimistic UI commenting system (add, edit, delete), and follow/unfollow mechanisms with profile management.

**Foodpanda Clone** | *Full Stack Food Delivery Platform* | [Live Demo](#)

- Built a complete food delivery platform with Next.js 16 featuring multi-role authentication (customer, restaurant, admin).
- Implemented real-time order tracking with Pusher WebSockets, restaurant management dashboard, and admin panel with platform analytics.

**E-Commerce Web Application** | *Full Stack with Admin Panel* | [Live Demo](#)

- Built a full-stack e-commerce platform with product management, cart functionality, and Stripe payment integration.
- Developed RESTful APIs and admin dashboard for managing products, users, and orders using MongoDB and Mongoose.

## EDUCATION

---

**Mehran University of Engineering & Technology, Khairpur**

*Bachelor of Engineering in Software Engineering*

August 2023 – Present

*CGPA: 3.20*

## CERTIFICATIONS

---

- Learn Context Engineering – Scrimba (13 Lessons)
- Advanced React – Scrimba (13.2 Hours, 173 Lessons)
- Open Hack 25 Participation – Mehran UET SZAB (Team ThreeFold Genius)
- The Definitive Guide to MongoDB – Educative
- Learn Node.js: Complete Course for Beginners – Educative
